
The Confession?

anyone heard this band before?

I first heard their song "Jealousy" on a sampler I got from Warped Tour or something and liked it a lot but had a hard time finding the CD (even downloading it was pretty much impossible). So I finally found it at Best Buy a few weeks ago and bought it and I think it's an amazing CD.

If you haven't heard them/heard of them, I suggest you check them out.
